Hi Vince,

Thank you for the information. Bob Patton and I will plan on attending the meeting, too. Please let me know if I can assist you in anyway.

Thank You,  
Dani

Dani,

I've started working up a generic letter that can be sent out to the residents. I'll have a draft I can send to you later this week. For the arsenic, the source will be attributed to natural occurrence in the aquifer material.

The Midland Center has been reserved for March 7th for a public meeting to update community. Proposed start time is 6:30 pm, TX DSHS has been notified and will be there. Please let me know if TCEQ can attend as well. Thanks.

Subject: WCR 112: Result Letters

---

Hi Vince,

I'm starting to receive the validated data on the filtration systems from November. I know we spoke about the As exceedances. I was wondering what language you are using in the your result letters about the As. I would like to use the same language, in case neighbors start comparing letters. I just want to be on the same page with you. When you have a chance can I get a copy of a letter or the language?

Also, have you set a date for the public meeting?

Thank You,  
Dani
